

LetMeRepair Turkey opens on the 1st March 2011

Johannesburg/South Africa, 25th February, 2011

LetMeRepair is proud to announce its investment in Turkey and the opening of its depot repair facility in Istanbul.

LetMeRepair is a specialist after sales service organisation with coverage in Europe, Middle East and Africa. The Group has more than 830 full time employees in 18 repair depots in 13 countries. LetMeRepair focuses on offering Turn Key Solutions in after sales support to the IT; consumer electronics and telecommunications industries, with service capabilities ranging from Technical call desk to Same Day Onsite resolution (SLA based).

We are proud to announce that we will now offer these world class services in Turkey leveraging on the proven service expertise in Europe; Middle East and Africa that comes with the LetMeRepair Group, combined with the highly qualified local skill set that the Turkish IT manufacturing industry has become synonymous with.

LetMeRepair Turkey will first develop in-country capabilities to deliver both on the contract assembly and warranty services sides of the business while future planned developments include national on-site services and managed services skills.

Esmail Gani Managing Director MEA announced that the Turkish market is key to LetMeRepair regional strategy and a fundamental building block in supporting its current and future global contracts base. He further explained that this investment would minimize the challenges currently faced in trying to manage cross border activities and strengthen the group's ability to deliver directly to this large domestic market.

All necessary legal proceedings and operational set up activities have been completed. LetMeRepair Turkey officially opens its doors for business on the 1st of March 2011 at the below address:

LetMeRepair
